Description

1. Value - Marketing initiative to impulse the sells as user will receive discount based on the amount of people using his unique code, the referenced user will get some discount as well as first time buyer.

2. Customer Narrative -

As Customer

I want to have a code to share with my friends

To receive high discounts

- Actor = Customer
- Data:
 - New field to customer sharable ID
 - New table to log amount of purchases vs used shared code
 - New page for customer check his current discount based on referrals
- Platform: Web/Mobile
- Acceptance Criteria:
 - User must have a sharable ID
 - User must see on his profile current discount achieved
